Good:

- AutoFill present for all input fields
- Pre filled-in text instructions
- Hide Password working as expected

Bad:

- No username minimum length set i.e. “R” or “r” work
- 1 or more spaces are considered valid usernames
- Spaces inside password are validated: i.e. “1, Aa?!£\$%^&*()-=, ?”
- No email data validation conditions in place. i.e. “roro”, “noemail” work including empty spaces
- No email length limitation
- No sign up confirmation alert or message
